ECTOPARASITES AND TREATMENT

Ectoparasites

“Although the term ectoparasites can broadly include blood-sucking arthropods such as mosquitoes (because they are dependent on a blood meal from a human host for their survival), this term is generally used more narrowly to refer to organisms such as ticks, fleas, lice, and mites that attach or burrow into the skin and remain there for relatively long periods of time (e.g., weeks to months). Arthropods are important in causing diseases in their own right, but are even more important as vectors, or transmitters, of many different pathogens that in turn cause tremendous morbidity and mortality from the diseases they cause.”

-Center for Disease Control

APPROVED TREATMENTS:

PRESCRIPTIONS:

- Citronella oil 100µl
Three (3) droplets per day, with meals
- Ledum 200c
Five (5) tablets per day, with meals
- Oregano Oil 2oz
One (1) serving per day
- Oregano oil 140mg
Two (2) tablets daily, at wake and before sleep, for six (6) months
